## One Day State Level Workshop

Workshop Topic:	Google Fact Checking Workshop
Date:	02/12/2022
Organized by:	IQAC, Bhangar Mahavidyalaya in Collaboration with Google
Name of Resource Person:	Mr. Pulakesh Ghosh, GNI India Training Network Trainer
Number of Participant :	228

## Report

A Google Fact-Checking workshop was organized by Career Counseling Cell and IQAC, Bhangar Mahavidyalaya in collaboration with Google on 02/12/2022 to equip participants with the skills and knowledge necessary to effectively verify and debunk misinformation and disinformation online. Here are some potential aims and objectives:

1. **Enhancing Media Literacy:** To educate participants about the importance of media literacy and critical thinking in the digital age, empowering them to discern credible information from misinformation.
2. **Understanding Misinformation:** To provide insights into the nature and prevalence of misinformation and disinformation online, including common techniques used to spread false information and manipulate public opinion.
3. **Introduction to Fact-Checking Tools:** To familiarize participants with fact-checking tools and resources provided by Google and other reputable organizations, enabling them to conduct thorough and efficient fact-checks.
4. **Verification Techniques:** Teach participants effective techniques for verifying the accuracy and reliability of online content, such as reverse image search, analyzing metadata, and cross-referencing multiple sources.
5. **Critical Evaluation of Sources:** Encourage participants to critically evaluate the credibility of sources, including websites, social media accounts, and news outlets, based on factors such as authority, expertise, bias, and transparency.
6. **Debunking Strategies:** To equip participants with strategies for debunking misinformation and responding to false claims in a responsible and effective manner, including writing fact-check articles and engaging with online communities.

7. **Ethical Considerations:** Discuss ethical considerations related to fact-checking, such as avoiding defamation, respecting privacy rights, and maintaining transparency in reporting findings.
8. **Collaboration and Networking:** Facilitate opportunities for participants to collaborate with other fact-checkers, journalists, and researchers, fostering a supportive community dedicated to combating misinformation.
9. **Promoting Accuracy and Accountability:** To promote the importance of accuracy and accountability in journalism and online communication, emphasizing the role of fact-checkers in upholding these principles and safeguarding public trust.
10. **Impact Measurement:** Explore methods for measuring the impact of fact-checking efforts, such as tracking corrections and retractions, monitoring changes in public opinion, and assessing the reach and engagement of fact-check content.

Overall, the aims and objectives of a Google Fact-Checking Workshop aim to empower participants with the knowledge, skills, and resources needed to navigate the digital information landscape responsibly and contribute to the fight against misinformation and disinformation. By promoting media literacy and fostering a culture of critical inquiry, these workshops support the broader goal of promoting a more informed and democratic society.

## Impact

The impact of a Google Fact-Checking Workshop can be profound and far-reaching, influencing various aspects of individuals' behaviours, online communities, and the broader information ecosystem. Here are some potential impacts:

1. **Improved Media Literacy:** Participants gain a deeper understanding of how to critically evaluate information online, leading to increased media literacy among individuals who attend the workshop. This can help them navigate the digital landscape more effectively and make informed decisions about the content they consume and share.
2. **Reduced Spread of Misinformation:** Equipped with fact-checking skills and techniques, workshop participants are better equipped to identify and debunk misinformation and

disinformation. By sharing accurate information and correcting false claims, they contribute to reducing the spread of misinformation online.

3. **Enhanced Trust in Information Sources:** Fact-checkers play a crucial role in verifying the accuracy of information and holding sources accountable for spreading false or misleading content. By promoting fact-checking practices, the workshop helps build trust in credible information sources and strengthens the integrity of the online information ecosystem.
4. **Empowerment of Online Communities:** Workshop participants become empowered to actively engage in fact-checking efforts within their online communities, encouraging others to question the validity of information and seek out reliable sources. This grassroots approach can have a ripple effect, fostering a culture of critical thinking and accountability online.
5. **Increased Transparency and Accountability:** By promoting transparency in reporting findings and methodologies, the workshop encourages greater accountability among content creators and publishers. This can incentivize them to uphold higher standards of accuracy and integrity in their reporting practices.
6. **Mitigation of Harmful Effects:** Misinformation and disinformation can have harmful real-world consequences, ranging from public health crises to social unrest. By combating false information at its source, fact-checking workshops help mitigate these harmful effects and promote public safety and well-being.
7. **Long-Term Societal Benefits:** Ultimately, the impact of fact-checking workshops extends beyond individual participants to benefit society as a whole. By promoting a more informed, discerning, and responsible approach to information consumption and sharing, these workshops contribute to the health and resilience of democratic societies in the digital age.

## One Day State Level Workshop

Workshop Topic:	Organic Farming
Date:	25.04.2022
Organized by:	IQAC, Bhangar Mahavidyalaya in Collaboration with HRD
Name of Resource Person:	Mr. Safiul Hasan, Agricultural Officer, Bhangar Block-1
Number of Participant :	81

## SEMINAR REPORT:

A one day state level seminar was organized by IQAAC Bhangar Mahavidyalay in collaboration with Human Resource Development (HRD) on the topic of Organic Farming on 25/04/2022. Increased environmental problems, soil and water pollution caused due to chemical farming were discussed widely by the resource person. He raised serious question about modern chemical farming technologies and pointed out that the use of extremely non-biocompatible, specially hazardous chemicals has put the consumers at health risk. The easy way out of all these problems are hidden in organic farming.

Organic farming refers to the process of using organic fertilizers and pest control techniques for development of nutritional crops. This is even called a zero waste technique of agriculture and is slowly gaining momentum around the globe.

### PURPOSE

- Discussion on needs of organic farming and its impact on environment.
- The benefits of organic farming on human health.
- Different process on and techniques of organic farming.
- New ways and ideas on organic farming to increase yield.

### OBJECTIVES

- Making students aware of the positive effects of organic farming on environment and health.
- Help students learn different ways of organic farming.
- Uses of organic manures.
- Encouraging students towards organic farming.
